

# Nilfisk GD 930 HEPA Filter Vacuum

The ever popular GD 930 by Nilfisk is a canister vacuum cleaner designed for solid performance in abusive environments. Its tremendous suction power and durable construction make it a reliable choice for demanding applications, such as mold, lead, or asbestos remediation. A superior filtration system, including a standard HEPA filter, ensures a safer work environment.

- A multi-stage filtration system features a paper bag, foam filter, and an upstream HEPA filter, helping to ensure indoor air quality
- The HEPA filter captures 99.97% of particles down to and including 0.3 microns
- Large wheel, caster, low profile and convenient carrying handle make it exceptionally easy to use
- Sturdy chrome-plated steel container enables it to withstand heavy duty use
- Quick and simple access to internal parts for easy servicing
- Quiet operation
- Meets the requirements for the EPA's Lead RRP (turbo nozzle and power nozzle sold separately)

**Standard accessories include:**

6' hose assembly with bent wand, telescopic wand, 12" combination floor nozzle, crevice tool, combination round dust brush/upholstery tool, and paper dust bag

### Technical Specifications

Data	Units	GD 930
Voltage @ 60Hz	volts	115
Power	watts	1000
Current Draw	amps	8.7
Waterlift, max	inches of H2O	92
Airflow, max	cfm	74
Noise Level @ 3' 3"	dB(A)	53
Filter Area, HEPA	sq. in.	1890
Dust Bag Capacity	gallons	4
Dimension (l x w x h)	inches	17.5 x 15 x 13
Weight	pounds	16.5
Cord Length	feet	32
Filter Efficiency, HEPA	DOP-tested	99.97% @ 0.3 microns
